- change your password
- your suffix gives your `DEFAULT_PORT`: example for user `atest09` => `DEFAULT_PORT = 8009`

```
git clone https://bitbucket.org/connecthive/cs2020_deploy.git

cd cs2020_deploy/java-getting-started
change java source code:
nano src/main/java/com/example/Main.java
[DEFAULT_PORT = 8092 change to DEFAULT_PORT = 8009]
(the first time) chmod +x mvnw
./mvnw install
cd target
(the first time) chmod +x go.sh
./go.sh

Output:
atest09@vps745320:~/cs2020_deploy/java-getting-started/target$ ./go.sh

    [serveur multissession] démarré sur ::8009

    en attente d'une connexion
```
